

CellATTACH® Tissue Culture Plates

Description

6 well, Flat Bottom, CellATTACH® Surface Treated, Blister packed, Sterile

Purpose

An innovative surface rendering it more hydrophilic and increasing surface stability

Materials

Plate: GPPS (General Polystyrene)

Lid: GPPS (General Polystyrene)

Dimensions (Unit: mm)

Features

- Flat bottom round well
- Lid with notched corners for good fit and easy orientation
- Wells are labeled with alphanumeric code for easy identification
- Assembled plate and lid height: 22.2 mm
- Max. volume (single well): 17.0 mL
- Working volume (single well): 1.9~2.9 mL
- Growth area (single well): 9.6 cm²
- Autoclavability: No
- DNase/RNase free and non-pyrogenic
- Sterilized by irradiation SAL10⁶ (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 room environment
- Manufactured under ISO13485 and ISO9001 quality management system

CellATTACH® Tissue Culture Plates

Description

12 well, Flat Bottom, CellATTACH® Surface Treated, Blister packed, Sterile

Purpose

An innovative surface rendering it more hydrophilic and increasing surface stability

Materials

Plate: GPPS (General Polystyrene)

Lid: GPPS (General Polystyrene)

Dimensions (Unit: mm)

Features

- Flat bottom round well
- Lid with notched corners for good fit and easy orientation
- Wells are labeled with alphanumeric code for easy identification
- Assembled plate and lid height: 22.7 mm
- Max. volume (single well): 6.8 mL
- Working volume (single well): 0.76~1.14 mL
- Growth area (single well): 3.85 cm²
- Autoclavability: No
- DNase/RNase free and non-pyrogenic
- Sterilized by irradiation SAL10⁶ (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 room environment
- Manufactured under ISO13485 and ISO9001 quality management system

CellATTACH® Tissue Culture Plates

Description

24 well, Flat Bottom, CellATTACH® Surface Treated, Blister packed, Sterile

Purpose

An innovative surface rendering it more hydrophilic and increasing surface stability

Materials

Plate: GPPS (General Polystyrene)

Lid: GPPS (General Polystyrene)

Dimensions (Unit: mm)

Features

- Flat bottom round well
- Lid with notched corners for good fit and easy orientation
- Wells are labeled with alphanumeric code for easy identification
- Assembled plate and lid height: 22.7 mm
- Max. volume (single well): 3.5 mL
- Working volume (single well): 0.38~0.57 mL
- Growth area (single well): 1.93 cm²
- Autoclavability: No
- DNase/RNase free and non-pyrogenic
- Sterilized by irradiation SAL10⁻⁶ (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 room environment
- Manufactured under ISO13485 and ISO9001 quality management system

CellATTACH® Tissue Culture Plates

Description

48 well, Flat Bottom, CellATTACH® Surface Treated, Blister packed, Sterile

Purpose

An innovative surface rendering it more hydrophilic and increasing surface stability

Materials

Plate: GPPS (General Polystyrene)

Lid: GPPS (General Polystyrene)

Dimensions (Unit: mm)

Features

- Flat bottom round well
- Lid with notched corners for good fit and easy orientation
- Wells are labeled with alphanumeric code for easy identification
- Assembled plate and lid height: 22.7 mm
- Max. volume (single well): 1.55 mL
- Working volume (single well): 0.19~0.29 mL
- Growth area (single well): 0.83 cm²
- Autoclavability: No
- DNase/RNase free and non-pyrogenic
- Sterilized by irradiation SAL10⁻⁶ (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 room environment
- Manufactured under ISO13485 and ISO9001 quality management system

CellATTACH® Tissue Culture Plates

Description

96 well, Flat Bottom, CellATTACH® Surface Treated, Blister packed, Sterile

Purpose

An innovative surface rendering it more hydrophilic and increasing surface stability

Materials

Plate: GPPS (General Polystyrene)

Lid: GPPS (General Polystyrene)

Dimensions (Unit: mm)

Features

- Flat bottom round well
- Lid with notched corners for good fit and easy orientation
- Wells are labeled with alphanumeric code for easy identification
- Assembled plate and lid height: 16.0 mm
- Max. volume (single well): 0.39 mL
- Working volume (single well): 0.075~0.2 mL
- Growth area (single well): 0.33 cm²
- Autoclavability: No
- DNase/RNase free and non-pyrogenic
- Sterilized by irradiation SAL10⁶ (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 room environment
- Manufactured under ISO13485 and ISO9001 quality management system

CAP011096	96	CellATTACH® Surface Treated	Yes	1	50	100

CellATTACH® Tissue Culture Plates

Description

96 well, U-Bottom, CellATTACH® Surface Treated, Blister packed, Sterile

Purpose

An innovative surface rendering it more hydrophilic and increasing surface stability

Materials

Plate: GPPS (General Polystyrene)

Lid: GPPS (General Polystyrene)

Dimensions (Unit: mm)

Features

- U-bottom round well
- Lid with notched corners for good fit and easy orientation
- Wells are labeled with alphanumeric code for easy identification
- Assembled plate and lid height: 16.2 mm
- Max. volume (single well): 0.33 mL
- Working volume (single well): 0.075~0.2 mL
- Growth area (single well): 0.58 cm²
- Autoclavability: No
- DNase/RNase free and non-pyrogenic
- Sterilized by irradiation SAL10⁶ (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 room environment
- Manufactured under ISO13485 and ISO9001 quality management system
